SUMMARY

- Proficient in building apps with MERN stack.
- Have made projects with Firebase (Firestore database) and hosted on itself.
- Actively learning more in Web2, currently NextJS and Angular.
- Actively making projects and contributing to open source to strengthen my skills.

SKILLS

- MongoDB
- React JS, Redux
- NextJS
- Firebase
- Typescript
- PostgreSQL
- Git
- Express, handlebars
- Node JS
- MySQL
- Tailwind CSS
- Python, C
- Prisma
- Github

WORK EXPERIENCE

Technex, IIT BHU

Web Developer • September 2023 - present

NextJS, Tailwind CSS, Framer Motion, Chakra-UI

- Worked on creating the CA (Campus Ambassador) Portal, mostly the frontend (ca.technex.co.in).
- Working on the main website next.
- Used Tailwind CSS, Chakra UI and Framer Motion for styling and animation.

Club of Programmers, IIT (BHU) Varanasi

Software Developer • July 2023 - present

Currently, working under 2 projects.

- **Mess management** : A progressive web app having functionalities to cancel mess meals in advance and automate mess fees process.
- **Unihub** : An app for students of IIT BHU where they can login with their institute email ID and can receive all the important announcements in one place with a good UI.

EDUCATION

B.E. Ceramic Engineering

IIT (BHU) Varanasi • 2022 - present

High School

DMA, Rampur U.P. • 95%

Intermediate

DDPS, Bijnor U.P. • 2020-2022 • 90.4% in subjects Physics, Chemistry, Maths, English and Computer Science

PERSONAL PROJECTS

LinkedIn Clone

Created a LinkedIn clone, the first page only with a basic feed functionality.

Tech stack used: ReactJS, NodeJS, tailwindcss, firebase (firestore database).

Github: <https://github.com/vyas-giri/linkedin-clone>

Deployment: <https://linkedin-clone-8e5b2.web.app/>

StoryVerse

Created an app where you can write your public and private stories.

Tech stack used: MongoDB, Express, Node JS, Handlebars, Google Oauth with Passport.

Github: <https://github.com/vyas-giri/StoryVerse>

Weather App

Created a basic weather app using Openweather API.

Tech stack used: React JS, Tailwind CSS, Axios.

Github: <https://github.com/vyas-giri/weather-app>

Deployment: <https://weather-app-six-kappa-82.vercel.app/>

Ecommerce App with Admin Panel

Currently working on a full fledged ecommerce app with an admin panel.

Tech stack used: Next 13, TailwindCSS, typescript, MongoDB, Prisma, MySQL.

Github: <https://github.com/vyas-giri/e-commerce-app>

Deployment: <https://e-commerce-app-henna-gamma.vercel.app/>

Image Gallery

Created an Image Gallery to display images based on user's query using Pixabay API.

Tech stack used: React JS, Tailwind CSS.

Github: <https://github.com/vyas-giri/Image-Gallery>

Deployment: <https://image-gallery-l32rnezzs-vyas-giri.vercel.app/>

My portfolio

Created a basic weather app using Openweather API.

Tech stack used: NextJS, tailwindcss, framer-motion, sanity-io, postgresql, supabase.

Github: <https://github.com/vyas-giri/Portfolio-v2>

Deployment: <https://portfolio-v2-vyas-giri.vercel.app/>
